Frontend Developer

Frontend Developer with 4+ years of experience in React and TypeScript, working in both startups and product companies. Designed application architecture, built UI kits, performed refactoring, set up CI/CD pipelines for frontend, and introduced new technologies. Capable of independently leading the frontend side of projects, while also thriving in team environments and collaborating effectively with backend teams.

WORK EXPERIENCE

Smart Base • Tashkent • 11/2023 - Present

A company specializing in web solutions and complex enterprise applications.

Frontend Developer

- Independently led the frontend side of projects, from architecture to deployment.
- Designed and implemented architecture for new applications, and built reusable UI kits.
- Introduced modern technologies to improve development speed and quality.
- Conducted code reviews and mentored the team to strengthen frontend expertise.
- Ensured efficient integration of the frontend with backend services via REST API.

Yandex • Tashkent • 11/2024 - 02/2025

Web Interface Developer (Internship) – Yandex GO

- Worked in the web development team of Yandex Taxi, creating and improving user interfaces.
- Fixed bugs, optimized existing components, and enhanced user experience.
- Developed functionality for internal testers, accelerating the testing process.
- Implemented optimizations that improved performance and stability of frontend applications.

Masterplast • 04/2023 - 10/2023

Project for developing a web application for designing window frames with interactive visualization

Frontend Developer

- Built the interface with Nuxt 3, using the Canvas API to render 2D/3D models in real time.
- Implemented functionality for customizing and visualizing window frames with interactive preview.
- Used Pinia for state management to ensure high responsiveness of the interface.
- Optimized rendering to improve performance when handling complex models.

ODMSoft • 10/2022 - 02/2023

Frontend Developer

- Developed interface and functionality for working with PDF documents (viewing, editing, saving).
- Implemented complex UI components and optimized document interactions.
- Used Nuxt 3 and Vue.js to build a responsive and stable application.

Freelance • 05/2021 - 08/2022

Development of web applications and user interfaces for various clients.

Frontend Developer

- Delivered projects of varying scale and complexity — from landing pages to complex SPAs.

- Worked with React and Vue.js, along with related libraries and tools.

- Integrated REST APIs and set up efficient client–server communication.

- Analyzed requirements and proposed optimal technical solutions.

- Ensured high-quality UX and responsive layouts across different devices.
